Fume Eliminator GoMax

- Efficient - All torches are within airflow range
- Intelligent - Seamless integration for robotic welding
- Safe - Nanofiber filter with innovative cleaning
- Versitile - Compact and mobile with optional HEPA or output hose
- Eco-friendly - 25% energy reduction compared with previous generation

Ensure a safer and cleaner workspace with our mobile welding fume extractor. Designed for both manual and robotic welding, this innovative solution captures harmful fumes directly at the source, protecting welders and production staff from dangerous particulates. Compatible with any welding torch, it offers effortless setup and operation. The system automatically activates with welding activity from one or two users and performs self-cleaning when necessary, ensuring optimal performance and efficiency.
