### Construction:

Top screen: Expanded metal, 3/4" square pattern  
Koga painted black metal.

**Collars:** Collars have a laser welded longitudinal seam.

### Drain conduit:

12 mm dia. used for 80 - 315 mm.  
25 mm dia. used for 350 - 600 mm.  
50 mm dia. used for 630 - 1000 mm.

**Ends:** Also supplied in flanged design (FLI/FLN).

### Additional Notes

At temperatures ranging between 200° C and 250° C, the zinc-iron alloy layers in galvanised steel will continue to provide a high level of protection from corrosion. However, there may be some peeling, changes in mechanical properties, and reduction in the corrosion protection. Recommended max. service temperature is +80° C.
